# LEARNING SACRED INTIMACY

**Starting with the foundation techniques, in a beautiful mindful environment, it is possible to explore, experience and evolve your intimate life**

Most of our intimate and sexual life is learned, often inaccurately, through porn and partners, which is not a very effective way of being able to access deeper connection and intimacy. Being with our coaches and your partner in a bounded learning space is a beautiful way to learn techniques that can expand your intimate connection whilst keeping the focus on you as a couple,, honouring your specific dynamic & belief systems

## NERVOUS SYSTEM GROUNDING

We teach breathwork and techniques that relax and ground the Nervous System making more pleasure and connection possible on a physical level

## BODY MAPPING & SKIN ACTIVATIONS

Touch techniques and body language recognised, taught in ways that provide delicious and connecting homework for couples!

## CONNECTION & COMMUNICATION

Fun & practical ways to start having the conversations that will expand and evolve your intimate life, and gently guide towards deeper intimate intuition

# BLISS BREATHWORK

---

We learn to regulate the Nervous System through Bliss Breathwork techniques, releasing anxiety and stress and creating more pleasure & connection

Having an immersive experience with your partner on retreat is often the reset that couples need, especially when combined with learning new somatic touch techniques.

# TEACHING COUPLES

You can choose to learn how to learn the massages and practice them at home, we suggest that you wear a swimming costume and sarong/robe to learn Sensual Yin Massage on this retreat.

## THE COUPLES' EXPERIENCE

*We teach in a way that respects your sacred intimate bond, by working as a couple to demonstrate these massage techniques whilst you work with your partner on this retreat.*

Sensual Yin Massage is a beautiful way to regulate your nervous system and reconnect with your partner through the release of oxytocin based touch techniques and bliss based breathwork!

The learning or Massage session will always be explained to you **before you experience it**, and we always take your individual requirements into account to give you the best and most comfortable learning and receiving experiences with massage!

With most Massage Workshops we teach as a couple, or with a model, so that you work exclusively with touching your partner if you are learning the massage techniques
